

CONTRACT RECRUITMENT

CANDIDATE

Agenda are specialists in life science recruitment. We work with a wide range of clients in pharmaceutical, biotechnology, academia and contract research organisations, recruiting for careers in:

- Animal Science (Laboratory)
- Business Development & Sales
- Chemistry
- Genetics
- Histology
- Immunology
- Microbiology
- Molecular Biology
- Neurology
- Oncology
- Pathology
- Pharmacology
- Toxicology

WHAT IS A CONTRACT TECHNICIAN?

Agenda provides resourcing solutions for clients experiencing staffing shortages within their facilities and these placements can be anywhere in the UK and Europe giving you the opportunity to travel.

Due to our clients' locations you may have to live away from home during the week and Agenda will cover all travel and accommodation costs along with providing full support from our head office team.

WHY AGENDA?

Working as part of the Agenda contracts team you will be assured of:

1. The security of full time employment work throughout the UK and Europe
2. We offer a comprehensive support network through our welfare first programme
3. Birthday off as an additional holiday day
4. IAT membership
5. Training and development along with the opportunity to gain industry qualifications.
